

TOURISM IN KANSAS

The travel sector is an integral part of the Kansas economy. Visitors generate significant economic benefits to households, businesses, and government alike and represent a critical driver of Kansas's future. We saw a 6.3% increase in employment supported by visitors' activity in 2022 as tourism supported a total of 88,509 jobs when including indirect and induced impacts. This represents one out of every 22 jobs in Kansas. The Tourism Industry ranked 12th in jobs in Kansas, surpassing wholesale trade in 2022.

In 2022, 36.4 million visitors spent \$7.7 billion in Kansas. Visitation grew by 8% with a \$618 million increase in visitor spending over 2021. Visitor spending, visitor-supported jobs, and business sales generated \$1.4 billion in government revenues. State and local taxes alone tallied \$777 million in 2022. Each household in Kansas would need to be taxed an additional \$660 per year to replace the traveler taxes received by state and local governments.
